Team Check-in & Seating Arrangement

Upon arrival, the selected teams will check in at the university gate, where a dedicated check-in desk will verify their registration. After check-in, teams will be guided to their assigned tables inside their designated rooms. Each team will be provided with a workspace formed by joining two red benches as a table.

To ensure a comfortable and well-organized working environment:

- A maximum of 10 teams will be allocated per room.
- Each team will be provided with one extension cord, which will be rented to ensure sufficient power supply for all participants.
- 2-3 volunteers will be present in each room to assist participants with any queries or logistical needs.
- Additional benches will be placed outside the classrooms, allowing participants to code in an open-space setting if they prefer.

To keep the participants engaged and refreshed, mini-games and workshop sessions will be conducted in the middle of the hackathon, providing an opportunity for relaxation and networking.
